

Chain spray

Lubricates and provides long-lasting care for motorcycle and other chains.

- Transparent, high-pressure resistant, highly adhesive lubricant.
- Prevents running noise and wear.
- Forms a quick-drying, tough-elastic lubricating and protective film.
- Does not attack Perbunan O-rings.
- Resistant to water, steam, acids and bases.
- Protects against corrosion.
- Targeted dosing to inaccessible locations also possible.
- Can also be applied to running machinery, since the user's hands always remain outside the hazard zone.

Details/Application

Suitable for lubricating rapidly rotating elements, e.g. chains and chain wheels, open gearwheels, toothed racks, slide rails, cog rollers, wire cables etc.

Notice

Shortly after being sprayed on, the product forms a highly effective, wax-based lubricating film, thereby ensuring optimum protection against lubrication.

The usage instructions are recommendations based on the tests we have conducted and our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result.
